Overview

It has been said that leadership is a prime force that makes positive things happen in a community. The 5th Edition of the Fanning Institute's *Community Leadership Program* (CLP) is designed to develop knowledgeable, skilled, committed, and action-oriented community leaders. It does so by bringing together people from diverse backgrounds and varying perspectives to learn more about themselves and their communities. In the *Community Leadership Program*, people share their ideas and experiences with each other, gain new skills and knowledge about leadership, and develop plans and strategies for implementing community betterment projects.

The CLP curriculum includes five core modules that provide everyone who participates with a foundation of basic leadership skills and knowledge. The core modules are:

1. Understanding Leadership
2. Communicating Effectively
3. Making Group Decisions
4. Building Communities Through Collaboration
5. Leading Community Change
